

閩僑之聲

The Voice of Man Kiu

第十期 Issue 10

新篇章，不變的心

今年是我教育生涯中的一個重要轉折，我從擔任了九年閩僑小學校長的崗位，轉換為顧問校長的角色。雖然我現在在另一所學校工作，但我與閩僑的連結依然深厚。我非常想念閩僑的學生，也珍惜我們一起建立的美好回憶。閩僑對我而言永遠是第二個家。

在我的新角色中，正在幫助另一所學校應對一個獨特且充滿挑戰的轉型過程。這所學校正在從一個較小的校舍搬遷到更大的校址，有國際部及環球本地部，有幼稚園到中學，而我在這個關鍵階段協助他們建立學校的系統和政策。這是一項複雜的工作，需要細心的規劃和奉獻，但能夠為這麼有意義的事情做出貢獻，讓我感到非常有力。正因沒有人願意接受這樣的挑戰，因此我便站出來幫助他們。

儘管新工作充滿挑戰，我的心始終與閩僑同在。所有重大日子，我都會回到閩僑，支持這裡的團隊，並與學生和教職員重聚，能夠回到閩僑，與大家分享這裡的喜悅和熱情，對我來說是一件無比感恩的事情。

閩僑在無數方面塑造了我，而我也將閩僑的精神帶到每一個地方。我們所堅持的價值觀、我們所培養的正向文化，以及我們共同建立的社群，都是無法取代的。當我幫助另一所學校成長時，我經常想起在閩僑學到的寶貴經驗，以及團隊給予我的不懈支持。

致閩僑小學的學生、家長及教職員們，感謝你們一直以來的信任與愛護。當我完成現任學校的工作，很快便與大家共聚。讓我把學到的一切，再次帶到閩僑小學，讓我們一起創造卓越的傳承。能成為閩僑的一份子，我深感自豪。

Consultant Principal Yip's Message

Principal Yip's Message: A New Chapter, an Unchanging Heart

This year marks an important turning point in my educational journey. After serving as the Principal of Man Kiu Association Primary School for nine years, I have transitioned to the role of Consultant Principal. Although I am now working at another school, my connection to Man Kiu remains deep. I miss the vibrant energy of our students and cherish the fond memories we created together. Man Kiu is, and will always be, my second home. In my new role, I am helping another school navigate a unique and challenging transformation. This school is relocating from a smaller campus to a larger one, with both international and local sections, spanning from kindergarten to secondary levels. At this critical stage, I am assisting them in establishing the school's systems and policies. It is a complex task that requires meticulous planning and dedication, but being able to contribute to such a meaningful endeavor keeps me highly motivated. Because no one else was willing to take on such a challenge, I stepped forward to help them. Despite the challenges of my new role, my heart remains with Man Kiu. On all important occasions, I return to support the team and reunite with the students and staff. Being able to return, and to share in the joy and passion here, fills me with immense gratitude. Man Kiu has shaped me in countless ways, and I carry the spirit of Man Kiu with me wherever I go. The values we uphold, the positive culture we foster, and the community we have built together are truly irreplaceable. As I work to help another school grow, I often recall the invaluable experiences I gained at Man Kiu and the unwavering support from the team.

To the students, parents, and staff of Man Kiu, thank you for your continued trust and love. I will soon reunite with all of you. I look forward to bringing everything I have learned back to Man Kiu and creating an exceptional legacy together. I am truly proud to be a part of Man Kiu.

署任校長心聲

能夠在閩僑小學工作，對我來說是無尚的光榮！不知不覺間在這裏已服務了十個年頭，當我每天遇到閩小的學生時，他們對我熱情揮手及敬禮，我深深感受到他們對我的歡迎及信任。作為署任校長，我深信權威不是最重要的，只有愛才可以打破一切隔膜及界限。

在此，我非常感謝曾文仲校監及顧問葉淑婷校長，他們不時給我啟發與指導，使我獲益良多，令我對學校的管理更有信心。而學校的老師，他們對學生的愛護及關懷備至，對教學的熱誠和執著，時刻緊守崗位，更能與我並肩同行，一起為教育努力不懈。我們共同建立一個充滿關愛、尊重及愉快的學習環境，使學生建立自信、主動學習、培育良好的品格及正確的價值觀，令每位小孩子能夠喜愛學習，盡展潛能。

而我更深信學校的家長，他們對學校的支持及信賴，無疑為學校打下一支強心針。家長們經常與學校保持溝通，互相體諒及理解，明白及欣賞學校的辦學理念，為孩子的成長，與學校攜手同行！

最後，期望在往後的日子，閩僑小學擁抱的正向文化及國際視野，繼續在學生心中不斷滋長！

Acting Principal Lau's Message

Working at Man Kiu Association Primary School is an unparalleled honor for me! Unknowingly, I have been here for ten years. Every day, when I meet the students, their enthusiastic waves and salutes make me feel their welcome and trust. As the acting principal, I firmly believe that authority is not the most important thing; only love can break down all barriers and boundaries.

I would like to express my deep gratitude to Supervisor Chan and Consultant Principal Yip, who have continuously inspired and guided me, allowing me to benefit greatly and boosting my confidence in school management. The teachers at our school show immense care and concern for the students, and their passion and dedication to teaching keep them steadfast in their roles. Together, we strive tirelessly for education. We have built a nurturing, respectful, and joyful learning environment that helps students develop confidence, take initiative in their learning, cultivate good character, and establish correct values, enabling every child to love learning and reach their full potential.

I also strongly believe in the support and trust of our school parents, which undoubtedly provides a strong foundation for the school. Parents often communicate with the school, showing mutual understanding and appreciation of our educational philosophy, and they walk hand in hand with us in their children's growth.

Finally, I hope that in the days to come, Man Kiu Association Primary School will continue to embrace a positive culture and an international perspective, fostering growth in the hearts of our students!

2025年新加坡遊學團

熱切期待，閩小學生終於再次踏足新加坡，於四月三日至六日參加「新加坡文化交流考察遊學團」。學生參觀了不少著名的新加坡旅遊景點，例如：獅頭魚尾像、新加坡科學中心、濱海灣公園、環球影城主題樂園等，更有機會參觀濱海堤壩，認識新加坡的蓄水系統。它除了本身實際用途外，亦是欣賞景色的熱門地點，有一望無際的草地，四周一片綠化，令人心曠神怡，閩小學生盡情地在草地上奔馳，呼吸新鮮空氣，不亦樂乎。除此之外，閩小師生更到訪新加坡HWA國際學校，透過有趣的課堂活動，讓閩小學生愛上學習。是次交流既豐富又充實，令同學獲益良多，也是一次寶貴的跨地域的文化交流。

The 2025 Singapore Study Tour

The Singapore Study Tour was held from 3rd to 6th April, 2025. With great anticipation, our students set foot in Singapore and visited many famous tourist attractions, such as the Merlion Statue, the Singapore Science Centre, Gardens by the Bay, and Universal Studios Theme Park. They also had the opportunity to visit the Marina Barrage and learn about Singapore's water storage system. In addition to its practical uses, it is also a popular spot for enjoying the scenery, with vast green lawns that create a refreshing atmosphere. Our students ran on the grass to their hearts' content, breathing in the fresh air and having a great time. Additionally, they visited HWA International School in Singapore, where interesting classroom activities helped them fall in love with learning. This study tour was both enriching and fulfilling, providing our students with valuable new experiences and an important opportunity for regional cultural exchange across regions.

「薪火相傳」國民教育活動系列

本校十名小五及六年級學生於一月六日至八日參與由教育局舉辦的「薪火相傳」平台系列：廣州非物質文化探索之旅(2024/25)，與坪石天主教小學共四十多人一起由香港西九龍站乘坐個半小時高鐵直達廣州。是次活動參觀多間學校及名勝景點，例如：廣州增城華商外語學校、華商技工學校、永慶坊、廣州市新文化館和七溪地等地方，祖國的教育及具歷史文化特色的文物令學生大開眼界。學生在行程中嘗試手繪製作面譜及旗袍，學習刺繡針織一些簡單的中國文化傳統圖案，加深對非物質文化的體驗。雖然這次行程只有短短三天，但已豐富了學生的藝術素養，擴闊學生視野，讓大家更珍視祖國的藝術文化。

“Passing on the Torch” National Education Activity Series

In January, 10 of our students, along with Senior Teacher Mr. Wong Man Yiu and Ping Shek Estate Catholic Primary School, participated in the “Passing on the Torch Platform” Programme Series: An Exploration into the Intangible Cultural Heritage in Guangzhou (2024/25), organized by the Education Bureau.

From January 6 to 8, the students explored a variety of schools and cultural sites, including Huashang Foreign Language Experimental School, Guangdong Huashang Technical School, Yongqing Fang, Guangzhou Cultural & Arts Centre, and Habitat Creek Villa.

It was an eye-opening experience for our students to delve into Chinese culture through activities such as drawing face masks and cheongsams, as well as embroidering traditional Chinese patterns. This three-day trip not only nurtured students’ artistic abilities but also broadened their appreciation for the art and cultural heritage of our country.

姊妹學校交流團

自早前與東莞暨大港澳子弟學校締結成為姊妹學校後，本校於去年十一月份，與東莞暨大港澳子弟學校及其他兩所學校一同參加「2024莞台港澳青少年科技教育交流活動」。有賴東莞市台港澳事務局的精心安排，整個活動能順利完成。兩天的行程和活動都十分豐富精彩。

首天，我們先到東莞暨大港澳子弟學校進行視藝課體驗交流，他們以新穎的色染方法製作木制手工扇，為其增添色彩。其後，我們到東莞市青少年活動中心，參加車輛模型競速交流體驗，我校兩位六年級同學更奪得模型車比賽冠軍。翌日，我們前往參觀松山湖材料實驗室及中國散裂中子源，了解近代中國的科學發展，同學們均獲益良多。其後，我們參觀了海戰博物館，了解中國與西方的大型海戰歷史事件，認識更多海防知識。是次活動增進學生見聞，給予他們寶貴的經驗。行程亦在歡笑聲中完滿結束，大家均期盼下一次的旅程呢！

Sister School Scheme

After establishing a sister-school relationship with the Affiliated School of Jinan University of Hong Kong and Macao Students (ASJ-DG), our school participated in the Dongguan-Taiwan-Hong Kong-Macao Youth Science and Education Exchange last November, alongside ASJ-DG and two other schools. Organized by the Dongguan Bureau of Taiwan, Hong Kong and Macao Affairs and the Dongguan Education Bureau, the event hosted around 70 teachers and students. We are grateful for the successful completion of this event.

We began with a visual arts session, using innovative dyeing techniques to create vibrant handmade wooden fans at ASJ-DG. Following this, we competed in a vehicle model speed racing event at the Dongguan Youth Activity Center, where two MKAPS students secured victory. The next day, we toured the Songshan Lake Materials Laboratory and the China Spallation Neutron Source, gaining insights into the scientific advancements in modern China.

We also visited the Humen Navy Battle Museum to learn about the historical naval battles between China and Western countries, deepening our understanding of naval defense. This experience enriched our knowledge and contributed to our personal growth. The students returned to school with bright smiles, excited for our next adventure.

飛行班體驗交流

航空飛行班推行至今，學生有幸參加了一系列與航空飛行相關的活動，這些經歷讓學生對航空產業有更深的了解。首先，我們體驗了新增的航空飛行模擬器。這些高科技模擬器能夠呈現真實飛行的感覺，無論是起飛、巡航還是降落，操作起來既刺激又具挑戰性。接著，我們參觀香港航空飛行教育徑。當中學生了解到航空的歷史、飛行的基本原理及安全的重要性。導師們的專業講解讓我們對飛行的複雜性有更深入的认识。此外，本校航空飛行班的學員還參與SkyDream舉辦的全港學界航空比賽，這不僅考驗我們所學到的飛行知識，也提升了團隊合作的能力。最後，我們前往深圳的富翔航空研學基地和龍崗研學基地，這裏擁有先進的飛行訓練設施。透過與專業飛行員的交流，我們學習到許多實用的飛行技巧和應對突發情況的策略。

這一系列的活動不僅增廣我們的視野，更讓學生們對航空未來的發展充滿期待。

Aviation Class and Flight Experience Exchange

Since the establishment of the aviation flight program, our students have had the opportunity to engage in a series of activities that deepen their understanding of the aviation industry. First, we explored the newly added flight simulators. These high-tech simulators provide an incredibly realistic flying experience, making takeoff, cruising, and landing both thrilling and challenging.

Next, we visited the Hong Kong Aviation Education Trail, we learned about the history of aviation, its fundamental principles, and the importance of flight safety. The instructors' professional explanations provided valuable insights into the complexities of flying. Additionally, students in our aviation program participated in the Sky Dream Inter School Aviation Competition. This event not only tested our aviation knowledge but also enhanced our teamwork skills. Lastly, we traveled to the Fuxiang Aviation Research Base and Longgang

Research Base in Shenzhen, both equipped with advanced flight training facilities. Through interactions with professional pilots, we gained many practical flying techniques and strategies for handling emergencies.

These experiences have not only broadened our horizons but also fueled our excitement for the future of aviation.

The school's Peace Corner provides mindfulness activities like painting, reading moral education books, and crafting, promoting self-care and creativity during recess.

12. Moral Education

Monthly assemblies promote twelve priority values and attitudes, namely filial piety, benevolence and respect for others. P1 students develop independence and accountability through "Expert in Self-Management" lessons, where they learn to tidy their desks, pack their bags, and help with chores.

This shapes them into responsible individuals who are caring and conscientious members of society.

一件令我難忘的事

三年前的某一天，我和鄰居一起在藍田郊野公園度過了難忘的一天。即使過程很艱辛，我最後也能爬到山頂。

那一天，我和鄰居約好了一起爬山，我們徒步走到一半的時候，突然，有一隻野豬跑了過來，我們立刻跑，幸好，野豬追不到就走了。我累了，說：「不如我們放棄吧！」鄰居說：「再爬幾分鐘就到山頂了，難道要現在放棄嗎？」

最後，我們爬到山頂，看到全觀塘的風景。我看到高聳入雲的高樓，很壯觀，很繁華，很興旺。

從這件事中，我明白了只要不放棄，就一定會成功。

最後，老師走過來分開我們，我十分後悔。我向小文說對不起，我們和好了，更一起看書。

窗外的景色

今天，不經意站在窗前，才發現窗外十分迷人，於是我倚在窗前，欣賞窗外優美的景色。

往窗外看，近處看見幾棵茂盛的大樹，它們有筆直的樹幹，但葉子開始枯黃了，還開始凋零。有些小鳥站在枝頭上，吱吱喳喳，牠們好像在高聲地唱歌，悅耳動聽。一幢高樓大廈直立在這個屋邨裏，它有藍色的外牆，還有長方形的窗戶，像一個士兵在保護這個屋邨。

我從窗外遠遠望去，那裏有很多輛汽車在馬路上疾駛。我還看到一個人穿梭在人羣中。我抬頭仰望，灰白的月亮映入眼簾，有一些人說月亮在向我們微笑，有一些人說月亮在招手，但我覺得月亮在向我們說：「快睡覺吧！不要累了！」

當我欣賞窗外迷人的景色，我感到心曠神怡，十分舒暢，舒緩了上學造成的疲勞。不知道甚麼時候再看到這麼宜人的景色呢？

漆黑中的螢火蟲——記黃大仙大停電

「同舟人誓相隨，無畏更無懼……」這首膾炙人口的《獅子山下》，當中歌詞大人小朋友都琅琅上口，但有幾個人明白當中含義？自從過了六月十二日晚後，我便深深明白當中意義。

六月十二日，我和弟弟如常補習後到外婆家休息和吃晚飯，然後等待父母下班接我們回家。晚上八時多，正當我和弟弟看電視看得忘形之際，「啪！」一聲，全屋突然漆黑一片。我和弟弟十分驚慌，外婆一向視力不佳，我們必須先攙扶外婆找出電筒。這時，門外嘈雜聲愈來愈大，並有人按門鈴，原來鄰居芳姨過來關心，並提醒外婆打開手機電筒功能，此時整條走廊閃起連連燈光。我打電話給媽媽尋求安慰，方發現原來整座大廈都停了電！

過了一會，我們開始冷靜下來。因為天氣炎熱，大家都打開了門通風，鄰居們開始互相交換晚餐食物，小朋友們更串門交換零食飲品，好不熱鬧。突然！大家想起了同層的張婆婆，外婆說她是獨居的，如果正身處廁所會很危險，幸好這時區議員先生連同關愛隊出現了。他們馬上趕到張婆婆家，張婆婆笑言今晚比新年時更多人來按她門鈴呢！雖然停電令她受了驚，但遠不及得到的關心。關愛隊先帶張婆婆和其他行動不便的街坊下樓到社區中心休息，離開前還讚賞弟弟勇敢，令平常膽小怕黑的弟弟得到無比力量。

這次大停電雖然讓整個黃大仙漆黑一片，但是鄰居間互助互愛的行動成為了一隻隻螢火蟲，聚集起來照亮了這個地方，獅子山下精神的光芒令我們不感到孤單畏懼。我很慶幸能陪伴外婆度過這次停電，這將是我們之間彌足珍貴的回憶。

普通話話劇表演

普通話話劇組同學於3月27日在學校禮堂進行了匯報演出，劇目為《溫情滋味》，是同學們在老師指導下共同創作的。期間小演員們互相配合和支持，台上台下都洋溢着溫情。學生透過參與戲劇訓練及演出，豐富了學習經歷。

Putonghua Drama

Participating in the drama enriched the students’ learning experiences.

英文科

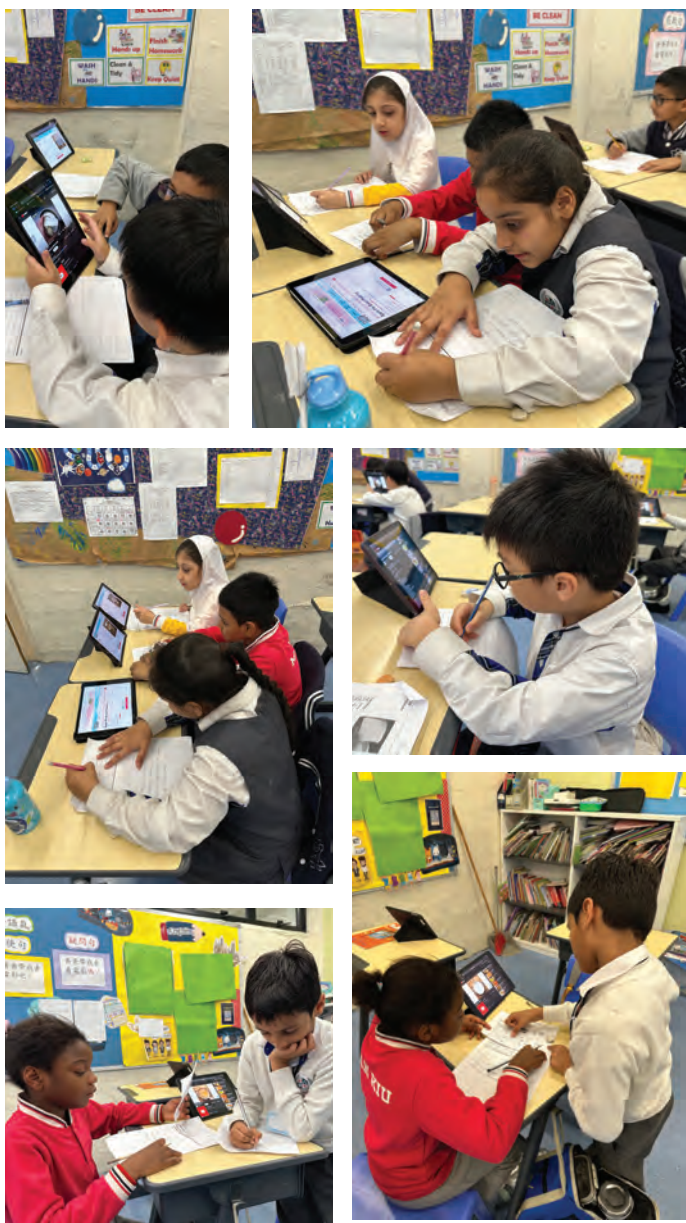

本年度我們著重於學生的自主學習，強調學習前的充分準備，幫助他們在掌握知識的過程中更加專注。例如，小六學生需介紹自己的理想職業，而低年級則利用編程平台進行創意寫作並與師生分享。這種學習方式旨在促進學習熱忱，展現創造力與潛能。精心設計的課程通過真實場景及互動工具，有效地提升學習的興趣。我們還積極探索更多資訊科技以支援課程發展，透過人工智能工具加強發音練習和詞彙運用，並利用與教材同步的電子書，將數碼素養融入學習。教學策略結合個性化的科技應用，實現進度跟蹤及即時反饋。此外，合作活動鼓勵學生交流想法，發展批判性思維及人際互動技巧；探究式任務則啟發好奇心並提升解決問題的能力。創意寫作與匯報展示獨特才華之餘，也增強了學生的自信心。藉由融合傳統方法與尖端技術，我們希望能培養具創新精神的終身學習者，迎接瞬息萬變的社會挑戰。

English Language Education

This year, our focus is on self-directed learning to empower students to take ownership of their education. Preparation plays a pivotal role, with Primary 6 students presenting their dream jobs and the lower primary exploring coding. Carefully curated programs ignite interest in learning through real-world scenarios and interactive tools. We integrate personalized, technology-driven instruction using adaptive learning approaches for tailored feedback and progress tracking. By leveraging AI tools, students can strengthen pronunciation practice, explore new vocabulary, and access e-books aligned with their textbooks, effectively bridging digital literacy with curriculum-based learning. Collaborative activities encourage idea-sharing while honing critical thinking and interpersonal skills. Inquiry-based tasks spark curiosity and promote solution seeking, while creative writing and presentations illustrate unique talents. By blending traditional methods with cutting-edge

techniques, we hope to cultivate lifelong learners ready to innovate and excel in a rapidly evolving world.

I'm in Candyland, and it's like a dream come true! There are giant ice cream cones everywhere, and the candy shop is filled with every sweet treat you can imagine. I even found a magical cotton candy room. I can play on the candy slide, which is the most fun ever! However, I must be careful and not run, or I might bump into the colorful candy walls. I love eating sweets with my friends. Candyland is the most incredible place, and I don't ever want to leave!

One day, Mr. Lo and the students were in the lab. They made a depollutionator called Cigi.

Unfortunately, Cigi thought Mr. Lo was rubbish and shoved him into its mouth. Mr. Lo screamed, "Help me! I'm becoming tiny!" Cigi did its job. Mr. Lo was as tiny as an ant.

The students were horrified and said, "Mr. Lo! You are really tiny!"

Then, the students made a potion to make Mr. Lo big again, and it worked!

Everyone was relieved and said, "Naughty Cigi!"

My Special Childhood Memory

My mom and dad called me “naughty baby”. Can you guess why?

When I was one, I was playing with my toys, and accidentally broke my favourite one. I stared at the broken toy for three seconds. Then, I started crying. My mom and dad rushed into the room to see if I got hurt, but I didn’t.

I pointed to the broken toy and started laughing. Then they laughed too.

Now, I have learnt to talk and explain myself properly. I am very different now. I think that this memory is amusing!

Kevin’s Dream

Kevin and his twin sister Sally were talking about their dream jobs at home after dinner. ‘My dream job is to be a singer,’ said Sally. ‘I’ll be famous! How about you, Kev?’ Kevin thought about it. ‘I want to be an astronaut,’ he declared.

Bedtime came in the blink of an eye and Kevin went to his room. A small voice was heard from the room next door. ‘Good night, Kev!’ it said. ‘Good night, Sally!’ Kevin replied. Then, everything went black for him until he saw himself in space.

He covered his mouth in disbelief. He was standing on the moon! He jumped but accidentally did a backflip. ‘This is so awesome,’ he murmured. Then he started exploring. He even collected a few rocks!

Suddenly, an ugly, slimy, googly-eyed creature ran up to him. It had ten or so long limbs. Kevin absolutely did not want to be tangled in them. The scariest part was that it had an evil grin that went from ear to ear, as if it had ears! Then, the alien said, ‘Too-doo-a, bu-zee-goo-goo! Hahaha!’ Then it ran at him at full speed! Kevin screamed nonstop as he ran away, but he couldn’t even walk well due to the laws of gravity. He ran and jumped but just felt like a floating balloon. ‘Don’t eat me!’ he cried.

Then the alien said crossly, ‘Why would I eat you, Kev? You’d better keep quiet!’ Kevin opened his eyes to see his sister. ‘You even woke up our neighbours!’ And with that, she stormed out of the room.

Kevin understood that there were dangers in space. He decided that he should learn karate before becoming an astronaut.

An Adventure for Susan and Tom

Once upon a time, there were two siblings named Tom and Susan. They had just finished their shopping and were on their way home. They were looking at different kinds of items on the store shelves. Then, a bag of coins caught their eyes. Tom reached down to pick it up and looked around for the possible owner of the bag of coins. Susan spotted an old man anxiously looking around, as if he had lost something. Both Tom and Susan approached the old man with worry. Tom tapped the man's shoulder and asked, 'Is this bag yours?' The old man's worried expression turned into a relieved one. He sighed in relief. 'Yes! It's mine!'

Then the old man took out an ordinary-looking apple. 'Here,' he said, handing the apple to Tom. 'You're not greedy. Take this apple as a gift. It can help you.' Tom tilted his head in confusion. 'How can this help me?' The old man smiled, 'You'll see...'

On their way home, Susan suddenly got caught by a dragon! Tom's eyes were widened in shock. He called out for Susan as she started to chase after the dragon. Susan screamed out for help in fear. After a while, Tom slowed down and watched the dragon place Susan inside a jail cell. Then the dragon settled down and fell asleep. Tom was scared but determined to save his sister. He managed to walk up close and tried to free Susan. After many failed attempts, he asked Susan, 'What can we do?' Susan replied, 'Why don't you eat the apple?'

Tom thought carefully about what to do with the apple. He took out the apple to take a bite when, suddenly, he felt the ground shaking. He turned around to see the dragon looming over him. In a panic, Tom threw the apple directly at the dragon right when it was about to eat him and Susan. The apple landed in its mouth. Surprisingly, the dragon liked it! It calmed down with a smile. Tom was still frozen in fear but shook his head to snap out of it. He managed to help Susan escape from her cell and ran off. They finally escaped without harm.

Kevin's Dream

After school one day, Kevin and his friend Sally were having a conversation about their dream jobs in the future. "Hey, Kevin. What do you want to be when you grow up?", Sally questioned curiously. "I want to be an astronaut!" exclaimed Kevin. "That sounds fun!" said Sally. She was impressed.

Later that night, Kevin was sleeping soundly. He felt relaxed and calm. It was very comforting for him to dream of being on the moon.

Suddenly, when he was on the moon in his dream, he turned around and saw an alien following him! Then, he started running as if he was in a race, but still, the alien caught up to him. He couldn't outrun the alien. No matter how far Kevin ran, the alien was still behind him.

A few moments later, Kevin woke up out of fear. Then, he realized something very important – exercise is really important for us. Astronauts need to be fit and brave!

數學科

課堂活動

本校數學科一直着重推行電子學習，學生運用iPad內的數學學習應用程式，進行有趣的學習活動。除了運用iPad學習外，我們亦重視手動探究活動，讓學生利用數學教具進行活動，深入理解數學概念。這樣亦能提升學生的觀察力、邏輯思維和問題解決能力，提高他們的學習成效和自主學習能力。

Mathematics Education

Learning Activities

Our school prioritizes the integration of e-learning in math education. Students engage in dynamic and interactive activities using educational applications. We also emphasize hands-on exploration for learners to utilize mathematical aids that enhance their grasp of key concepts. This strategy sharpens observation, logical reasoning, and problem-solving skills, thereby promoting independent learning and bolstering academic performance.

數理日

本校在每年都會舉辦數理日，讓學生們在數理活動中加強對數學和科技的認識，提升他們的學習興趣。在活動中的「雞蛋撞地球」實驗，同學們可以了解到保護容器的重要，過往不少同學自製的包裝設計都十分有創意，並能運用磅準確測量裝置的重量，從而作出改善。低年級同學亦會有「紙飛機比賽」和「滑翔機比賽」，從而激發同學們的創意和解難能力。另外，六年級學生亦會為低年級同學準備數學和科技攤位遊戲。遊戲設計別出心裁，極受低年級同學歡迎。數理日不僅能增進了同學間的交流，也能夠讓他們明白到數學和科技在生活中的應用和重要性。

Math and Science Day

Each year, our school hosts Math and Science Day to expand students' knowledge through an array of activities, igniting their passion for learning. In the classic egg drop experiment, students investigate the significance of protective containers. Many of their packaging designs convey impressive creativity, and they adeptly use scales to measure and refine their models. Junior students participate in paper plane and glider challenges, developing inventive thinking and practical troubleshooting. Interactive booth games uniquely created by Primary 6 students are very popular among younger learners. Math and Science Day encourages collaboration and highlights the relevance of mathematics and science in daily life.

常識科

10/2-13/2為本年度專題研週，學生分別需要研習社區、自然環境和有特殊生活需要的人士

小一至小二的主題為我的理想社區設施。學生外出實地考察，設計他們理想中的餐廳、公園及超級市場。學生們從「用家」的角度出發，設計最具童心的社區設施，大家看來都很滿意呢！

小三及小四的學生主題為適應極端天氣或環境。從北極到熱帶雨林，從蝴蝶到人類，都是學生們研習的主題。學生對地球的好奇和關注，遍佈世界每個角落。

小五及小六的學生着眼於有特殊生活需要人士的身心發展，例如長者、聽障人士等，為他們設計便利的生活用品或發明。過程中，學生認識到這些人士的生活需要，發揮同理心和創意，設計出很多別出心裁的發明。

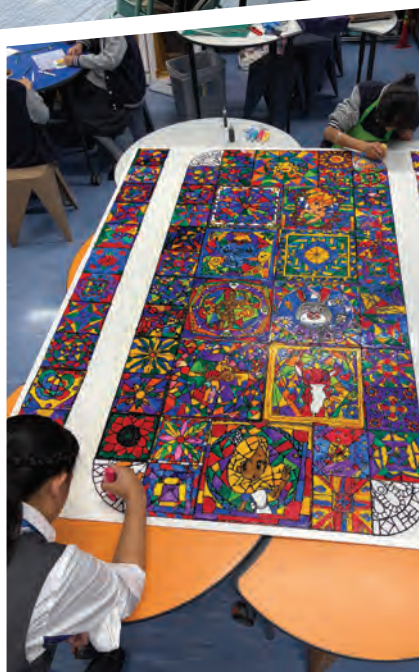

General Studies

February 10 to 13 marked this year's project-based learning week, an exciting period during which students engaged in thoughtful exploration of community, environmental topics and the needs of individuals with disabilities. Primary 1 and 2 students delved into the theme of "My Ideal Community Facilities." Through field trips, they envisioned and designed imaginative facilities such as restaurants, parks and supermarkets. By considering the user experience, these young learners presented their ingenuity, leaving everyone impressed with the remarkable results.

In the case of Primary 3 and 4, students focused their studies on extreme climates and habitats. They investigated fascinating subjects ranging from polar regions to tropical rainforests, and from the lives of butterflies to human beings. Their dedication to understanding the planet's diverse challenges extended far and wide.

Meanwhile, Primary 5 and 6 students concentrated on the well-being and development of individuals requiring special accommodations, including older adults and those with hearing impairments. They conceived and crafted practical products or inventions designed to improve daily life for these groups. It was an incredible week of learning that nurtured both compassion and innovative thinking, culminating in numerous creative and impactful solutions.

視覺藝術

Visual Arts

視藝科延續發展往年獲藝發局頒發之藝術教育獎計劃：「看得見的藝術史」（Arts - A Visual History）的精神，於本年度加入光與影的新元素，並融入課程當中，藉此激發和擴大學生的創作空間。與此同時，適逢本年度為本校五十五周年校慶，他們的作品於五月上旬假賽馬會創意藝術中心向公眾展出，一起見證這歷史時刻和回顧本科的發展。

The Visual Arts Department continues to uphold the spirit of the award-winning Arts - A Visual History program by the Hong Kong Arts Development Council (ADC) from previous years. New elements of light and shadow have been incorporated into the curriculum this year, advancing and expanding students' creative potential. Additionally, in celebration of our school's 55th anniversary, students' artworks were showcased to the public at the Jockey Club Creative Arts Centre (JCCAC) in May, marking this historic milestone and reflecting on the department's evolution.

音樂
